Gospel voices lyrics

Connection

I see your face, every time I close my eyes
I write your name on every paper that I find
And I don't know I'll ever meet you here again
I keep on looking at the door for you to come in
and come up to me and say

I feel a connection with you
And a spark can start a forest fire
There's some kind of magic in you
and I've never seen it quite the same
It's a sweet encounter

And I wonder if she feels the same - I thought having this line just once could work.
cos I want to love her

I hear her name from the people on the floor
It's like a game, back and forth towards the door
Cos she's unreachable beyond the set and stage
And it's insane to think that she'll come out of her way
just like the movies - and say

Don't Lock Me Out

Running, running out of luck
You gave me everything I've got
So would you keep me in your good book for a while until I'm standing
On my own two feet and ready for my life to make a turning

Don't lock me out
Give me just a little time
I know I've let you down
But I will make it right
Under your light
all my hopes and dreams are found
In my darkest night
You're the one who helps me come around
yeah yeah yeah yeah yeah
You keep my fire burning
Please don't lock me out
If I don't have you I'll never come around

Falling falling out of love
You call me only when you want
And if I keep you in the shadows of my life you'll keep returning
With your broken dreams and promises and lies, and I'm over it

Gospel voices lyrics

Another Life

Move on straight, don't you turn around
I'm not gonna miss you when you're around
Take or leave all the things we own
memories of kindness are far away and gone, gone, gone, gone

You shone like the sun
but there will be another dawn
I'll be on my own
But you will now that I am strong
For your love betrayed me
Fooled me in to thinking that you wouldn't hide another life

Kept my heart hanging on a thread
Begging for forgiveness for something i had said that offended you
Every fault laid here at my feet
The pile of my transgressions so high i couldn't see you lie to me

You Bring Me Life

Searching for a new direction
Working out what's in my soul
Longing for a new injection
Healing come and make me whole
I'm looking for my reason to live
Working out why I am here
Give me some faith, my identity
You can take away my fear

Cos you bring me life
You bring me joy
You bring me freedom
and I can let go - if you hold onto me
I'll loose my grip and let go
I'll take a sip and swallow
You show me in and I will follow
Freedom within - if you hold onto me

Been along the earth's equator
Sailed across the narrow seas
From the Cape to North Alaska
Seven wonders I have seen
I've been in love so many times
Still I search inside of me
Give me some faith, some reality
Help me find the heart in me

Gospel voices lyrics

Perfect Love

Feels like all along
I've been the one who's wrong
and there's a better part of me
somewhere far from home
I need you to save me from myself
Take me from the darkness that I've felt
Will you lead me to a better place?
Forgive what I have done?

Cos I'll make you number one
Believe the day has come
You'll be my number one, on and one
I've no desire to run

I need some of your perfect love
Fill my bottle to the top
I need some of your perfect love
Please don't ever, ever stop

On Friday I have all the best intentions
Keep my mind and body clean and free
I don't even know what happens
But I keep on losing myself and my dignity

Sunday I will always feel the same
Confessing my mistakes to you again
Will you lead me to a better place
Erase what I have done?
