**AI APOCALYPSE
ASSIGNMENT**

The robots are taking over!

For this assignment, you must base a composition around the provided vocal samples from Soul Rush Records' A.I. Vocal Confessions Pack:
<https://www.loopmasters.com/genres/95-EDM/products/15492-A-I-Vocal-Confessions>

You can use as much of the sample(s) as you like (pick one or more than one - it's up to you) and choose whatever tempo you like, just make sure the style is suitably intense and dystopian!

Post your tracks to the forum thread or send to rob@producertech.com and a winner will be chosen early 2023. Prizes TBA

Good luck!
